

To Our Loyal Customers,

W & D Recycling has unfortunately made the decision to **CLOSE** our **EDNA, TX** location effective October 28, 2016.

We will be merging operations with our **BAY CITY** location and will continue to offer full metal recycling services to the public as well as our **Onsite Roll-off Container Services** to our business customers.

For our **Commercial and Industrial Customers** in the Jackson County market area, you can request a Roll-off Container to be brought to your location for your scrap metal recycling. In most all cases, this is actually more convenient and cost effective for your business.

W&D Recycling wants to extend a big **THANK YOU** for being our loyal customers for over 21 years – we will miss being a part of the Edna and Jackson County communities.

We hope to continue to do business with everyone in the future – come see us at our **BAY CITY location:**

W & D Recycling LLC
1362 State Highway 35
Bay City, TX 77414
(South of Bay City)
979-323-9811

You can follow us on Facebook, or check our Website for more updates: www.wdrecycling.com
Thank you again for your continued support!
